Executive Summary:

In 2022, Reaper Financial achieved significant milestones across its operations. We conducted 27 successful Reapings, totaling \$337,744.58 in digital assets or 634,525.67 XRP in value. Reaper Financial successfully achieved a zero-income target without incurring debt or unnecessary overhead.

In addition, RF developed and deployed a working Blockchain Voting Mechanism, transitioned to an "every vote counts" model, launched the first fully self-custody passive XRP earning program, and distributed 174,094.85 XRP over a period of 9 months through its innovative DRIP protocol.

Reaper Financial achieved great success in the NFT market, holding the top-selling NFT record for 6 months and having two of the top ten NFT Collections of all time on the XRPL through a partnership with xSTIK. RF also launched two complementary products in the 4th quarter, Ascension and ARK, with flawless execution. Despite the 2022 Bear Market, the SEC vs Ripple Labs shadow, and the collapse of LUNA and FTX, Reaper Financial's offerings outperformed the market, adding value and utility and finding higher bottoms while the market at large lost.

In 2023, Reaper Financial will debut its premier Debt Reaping Service and reorganize to face the challenges of scaling and mainstream adoption. RF aims to take the lead in the XRPL as "The XRP Layer-2 Asset Provider" as we deliver on the promise of blockchain.

OPERATIONS AND BUSINESS DEVELOPMENTS

In 2022, Reaper Financial grew from three original founders and four board members to a workforce of twenty-nine professionals and contracted developers. All members of Reaper Financial were compensated in tokens only. The company has organized as a dynamic top-down teams based hierarchy with focuses in Marketing, Development, Admin, and Executive Strategy.

In August 2022 Reaper Financial founded it's first subsidiary, Fortify Homes LLC which will be used as a Real Estate Investment Firm providing real word research and application of the Debt Reaping utility as applied to income properties as well as a test bed to launch veteran and homeless housing initiatives for Phase V & VI. Fortify began life in partnership with Phil Groves Big Dog Alliance and the Texas Real Estate Investors Association; a network of more than 3,000 Hard Money Lenders and Real Estate Investors. Proving Debt Reaping in this specific market will provide Real Estate Investors with an exceptional framework from which to grow their equity holdings.

Overhead for Reaper Financial was kept to a minimum with a 100% remote-work policy with contractors and volunteers contributing on an at-will basis. All Reaping, Vote, and DRIP operations were performed without any major incident.

A LOOK AHEAD NEW PRODUCTS AND SERVICES:

Ascension Index is anticipated to launch in late 2023 with a new team and a new drive led by Elaine Diane Taylor. The Ascension utility of 2022 was a no-profit proof-of-concept for a non-custodial distributionof-goods logistics system. In the next Phases of Ascension it will transform wholly from a simple distribution to the essential divestment product.

ARK Institute, launching in January 2023 will set a new paradigm for the means of charitable giving. Led by Greg Prewett, ARK will enable charitable funding without loss of funds, self-funding for charities that meet the Gates, and will answer the most important challenge; what Reaper Financial founder Patrick Riley calls 'the key to mass adoption': "How do you enable a homeless person in a cashless society to receive donations without internet connectivity, to be able to use the donation, and to safely transact with other homeless?"

2022 MARKETING

Reaper Financial spent \$57,745 on marketing in 2022, with primary focus on digital media and merchandise. Though return on investment is difficult to quantify, there were some resounding successes and other methods that fell short.

Ian Jones (CMO) led a highly successful geurilla marketing campaign in which volunteers 'crashed' Ripple Swell '22; engagements in interviews through podcasts and radio such as Chris Berg received great reviews while physical items such as merchandise and coins were very well received. Though Reaper Financial did not take any profit from physical merchandise in 2022, the tangible products do well to represent the legitimacy of our mission.

In 2022 Reaper Financial averaged 28,000 holders with 600 active voters per Reaping. Our Website received an average of 3917 unique visits per month and 18,000 page views.

What we can do better:

Although we deployed paid digital marketing campaigns, they met with limited success which we in large part contribute to the learning curve associated with adoption of Digital Assets. We are aware that the system is not currently user friendly or intuitive, and we aim to fix it.
